Quality policy at METZ CONNECT

To ensure the success of our company and secure jobs, we maintain an effective and economical quality management system based on ISO 9001. Every employee consciously contributes to this through the quality of their work.

- ✓ We turn our customers into fans. We achieve this by continuously improving the quality of our products and processes – smart, fast, and reliable.
- ✓ We are committed to the zero-error goal. In doing so, we focus on error prevention.
- ✓ We plan, control, and monitor our quality and safety-related activities throughout to ensure that we meet our quality requirements and those of our customers.

Our environmental policy is made known to all co-workers and reviewed annually during the management review to ensure its suitability and appropriateness.
